EDUCATION

Guru Gobind Singh Indraprastha University   Delhi, India
Bachelor of Technology in Computer Science and Engineering 7.5 CGPA   November 2022 – July 2026 (Expected)

TECHNICAL SKILLS

Languages: C, C++, HTML, Python, CSS
Libraries / Frameworks: React.js, Vue.js
Tools / Platform: Github, VsCode, Git, Canva
Databases: DBMS, SQL, MongoDB

PROJECTS

Hashtag-Technical-Society-Website | [Link](#)   *React, JavaScript, Sanity, CSS, HTML*
- Architected a multi-page React application with a headless **CMS (Sanity)** backend for dynamic content management and a **Web3Forms-powered** contact page.
- Designed and implemented a modern, responsive UI with advanced animations using **Framer Motion**, featuring interactive holographic cards and a macOS-style dock.

Sync-Stream | [Link](#)   *MongoDB, JavaScript, CSS, HTML*
- Engineered a full-stack, Spotify-inspired music streaming application using the **MERN stack.**
- Built the core feature of real-time, synchronized **Listening Parties** using WebSocket (**Socket.IO**) for shared playback control and a live group chat.
- implemented a secure user authentication system with **JWTs** and password hashing, enabling user-specific data like personal playlists and a **'Liked Songs'** library.

ACHIEVEMENTS

HACKEMON HACKATHON | Top 20 | Galgotias College of Engineering | [Link](#)   April 2025
- Appeared as a **Top 20** finalist among 650 teams in the highly competitive, **Pokémon-themed** Hackemon Hackathon, which brought together 1500+ participants for a 36-hour innovation challenge.
- Collaborated effectively within the team **Idiosyncratic Amalgamation** to develop and present a project from concept to finale in a challenging environment.

COMMITTEES

President | [Link](#)   October 2024 - Present
[Hashtag: *College Technical Society*](#)
- Led a **25**-member team in the end-to-end execution of **20+** new technical events and hackathons, attracting a combined audience of over **2,000** participants.
- Orchestrated all operational aspects of the Technical Society's events, from ideation and **problem-setting** to promotions and final deployment, enhancing **knowledge exchange** within the community.
